[13th December, 2019.]

An Act to provide for the regulation of recycling of ships by setting certain standards and laying down the statutory mechanism for enforcement of such standards and for matters connected therewith or incidental thereto.

WHEREAS, the International Maritime Organisation adopted the Hong Kong International Convention for the Safe and Environmentally Sound Recycling of Ships, 2009 which ensures that ships, when being recycled after the end of their operational lives, do not pose any unnecessary risk to the environment and to human health and safety;

AND WHEREAS, the said Convention was developed with inputs from International Maritime Organisation Member States, Non-Governmental Organisations and in co-operation with the International Labour Organisation and the Parties to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal, 1989;

AND WHEREAS, the Hong Kong Convention lays down the aspects relating to design, construction, operation and preparation of ships so as to facilitate safe and environmentally sound recycling, without compromising the safety and operational efficiency of ships and the establishment of an appropriate enforcement mechanism for recycling of ships;

AND WHEREAS, the said Convention contains the provisions which are not covered in the Ship-breaking Code (Revised), 2013 notified by the Government of India to regulate the recycling of ships in India;

AND WHEREAS, the said Convention lays down the multilateral framework to be followed internationally by countries which become a party to it;

AND WHEREAS, India, being a Member-State of the International Maritime Organisation, had participated in the said Convention and expressed views for the protection of environment and human health and safety during the process of recycling of ships;

AND WHEREAS, it is considered expedient to accede to the aforesaid Convention now and to have an appropriate legislation on issues relating to the recycling of ships.

(2) Every order made under this section shall be laid, as soon as may be after it is made, before each House of Parliament.

STATEMENT OF OBJECTS AND REASONS

India is a leader in the global ship recycling industry with a share of over thirty per cent. The ship recycling industry is a labour-intensive sector, but, it is susceptible to concerns relating to environmental safety. The existing regulatory framework, namely, the Ship Breaking Code (Revised), 2013, governs the ship recycling activity in India and lays down the standards for environmental protection and workers' safety. However, the said Code does not provide penalties for contravention of the provisions of the Code or deal with the restrictions and prohibitions on use of hazardous materials on ships.

2. In view of the above, it is proposed to enact a legislation to provide for restrictions or prohibitions on use of hazardous material on ships and regulation of recycling of ships by setting certain standards and laying down the statutory mechanism for enforcement of such standards and for matters connected therewith or incidental thereto.

3. The proposed Recycling of Ships Bill, 2019, *inter alia*, provides for the following, namely:—

(i) to designate an Authority to be called the National Authority to administer, supervise and monitor all activities relating to ship recycling;

(ii) to designate an Authority to be called the Competent Authority, to perform the prescribed duties within the geographical areas of expertise;

(iii) the provisions of this Bill shall not apply to any warship, naval auxiliary, or other ships owned or operated by the Government and used for Government non-commercial purpose;

(iv) to provide that no ship shall install or use any prohibited hazardous material notified by the Central Government;

(v) to issue a certificate on inventory of hazardous materials and ready for recycling certificate which are an essential documents to the ships which are destined to be recycled by its owner;

(vi) the provisions relating to ship recycling plan which shall be prepared by the Ship Recycler and the general requirements for recycling of ships;

(vii) to impose an obligation on the Ship Recycler to take measures for protection of environment during the process of ship recycling; and

(viii) providing for appeal against the orders of Competent Authority to the National Authority and from the National Authority to the Central Government.

4. The Notes on clauses explain in detail the various provisions contained in the Bill.

5. The Bill seeks to achieve the above objectives.
